

play.numbots.com or download the app

Numbots is a fantastic website used to help children to learn, practise and embed important key number skills that we learn at school. It is so important for the children to regularly practise and improve these maths skills both at school and at home.

You can access **Numbots** via the website above, or by downloading the app. Your child's log in details are the same as for their **Times Table Rock Stars** account, which is stuck in their homework books.

To get the most out of **Numbots**, we recommended that your child goes on little and often (short bursts of 5-10 minutes 4/5 times a week).

Game Types

Story Mode – Learn key maths skills through lots of diagrams, shapes and question styles.

Challenge Mode – Improve speed of recall of key facts, like number bonds to 10, doubling or adding and taking away mentally.

If you have any questions, please don't hesitate to talk to your child's class teacher. Thank you for your continued support.
